

DenTech China 2021

Notification of Covid-19 Prevention and Control Requirements

DenTech China 2021 will be held at the Shanghai World Expo Exhibition and Convention Center from November 3 to 6, 2021. According to Shanghai's requirements for the prevention and control during the epidemic, all guests, representatives, visitors, exhibitors, and staff must comply with the following regulations:

1. Types of personnel who cannot participate the exhibition:

- (1) Those who or their family members, cohabitants have travel and residence history abroad within 21 days before the exhibition; people whom or their family members, cohabitants have travel and residence history in Macau or travel and residence history in the middle and high-risk areas within 14 days before the exhibition.
- (2) Those who are positive for the nucleic acid test of the Covid-19, and those who have been confirmed as the cases of Covid-19 and close contacts or related contacts of asymptomatic infections, who are still in isolation period for medical observation.
- (3) For confirmed cases who have been cured from hospitals or asymptomatic infections, who have just completed isolation period for medical observation and those who are still in the follow-up medical observation period.
- (4) Those who exceeds the normal body temperature (37.3°C) or have suspected symptoms during the health monitoring, go to a designated hospital for investigation, and have not ruled out infectious diseases or still have symptoms of physical discomfort.
- (5) Other personnel who are confirmed by the on-site staff to be unsuitable to participate the exhibition.

The above personnel are not allowed to participate in the exhibition. The middle and high-risk areas are identified according to the dynamic situation on the date of exhibition.

2. For all personnel entering the exhibition hall:

- (1) All personnel entering the exhibition hall must enter the exhibition area with a negative nucleic acid test certificate valid within 48 hours (from the beginning of the examination).
- (2) All personnel entering the exhibition area must have health code and green trace code ready.
- (3) Please register the exhibition and fill in your personal information before participating, please bring your personal identification card such as passport to enter the exhibition.

The test reports should be provided from regular medical institutions that are recognized by China. It is strongly recommended to complete the nucleic acid test ahead of time to avoid waiting for several hours for the report.

Please advise, two temporary nucleic acid testing points will be set up. The first one will be at H1-7 at North Square of the SWEECC and the other one will be on the second floor of the exhibition hall. All personnel are requested to pay attention to personal protection including maintain a safe distance, wear masks, wash hands frequently and validity period of the nucleic acid test report.
