2. Presentation of Exhibits

Exhibitors must present their exhibits throughout the period of the exhibition from October 24 - 27, 2024. **No exhibitor is allowed to remove his exhibits from the exhibition floor prior to the official closing of the exhibition.** Every exhibitor should have an authorised representative present at the exhibition stand throughout the period and during the installation and dismantling of his exhibits.

3. Exhibit Demonstration And Operation

- A. Exhibitors are responsible for the safe demonstration of working exhibits. Exhibits likely to pose a risk to visitors must be appropriately protected.
- B. Exhibitors must ensure that working exhibits being demonstrated do not emit radiation or gases likely to be harmful to human life e.g. laser, toxic gases.
- C. All machines for demonstration must be equipped with safety devices and running signs, which may be removed only when the machines are disconnected from power without any latent danger.
- D. Should any working machine present a risk to the public, the exhibitor must erect signs to warn the visitors to keep a safe distance from the machine, and protection device such as glass shield should be set up between the machine and visitors.
- E. Any machine or apparatus can only be operated on the stand, and operated and supervised by qualified persons. No motors, engines or power driven machines are to be used without adequate fire-protection measures taken by Exhibitor.
- F. Exhibitors are required to demonstrate their operation to the safety officers during the move-in.

4. Food & Beverage and No Smoking

According to the Government stipulation, all the exhibitors and staff are not allowed to smoke in the Exhibition halls. Exhibitors may have food and beverages at the cafeteria and restaurant inside the exhibition center.

5. Stand Cleaning

The organizers will arrange for the general cleaning of the Show premises and stands (excluding exhibits/displays) prior to the opening of the Show and daily thereafter, but it is the responsibility of the exhibitor to keep its stand tidy at all time. Exhibitors are requested to place any rubbish or discarded materials in the aisles at the end of each day to avoid confusion for the removal by the cleaners.

Exhibitors are to arrange their packing materials, empty cartons and wooden crates to be removed and disposed before the Show opens and daily.

6. Environment Protection Measure

All attendees shall act the role of protecting environment. Here are some tips helping you to participate in the exhibition more environmentally friendly, by reducing amount and re-using.

- A. Make reasonable plan for quantity of distribution. Please do not print and

transport materials more than the quantity you need.

- B. Use environmentally or recycled materials as many as possible. Make reasonable plan of your booth design and construction. Reduce wooden materials as many as you can, but use assembled materials instead so that you can reuse them. Don't use plastic bags to distribute promotional materials. Give up advertisements and signage in PVC but use cotton or paper instead.
- C. Use no toxic, volatile paint and glue for construction. And use CFL or LED light as many as you can. And so is recycle carpet.
- D. Reduce using packaging materials and paper boxes to the minimal quantity.

(With little effort you can protect environment and the earth.)

Better Stands Programme

One single stand can create around 4 tonnes of waste. They also take longer to build, are more risky to plan and can contain a lot of hidden costs. We believe that by moving away from the use of disposable exhibition stands we will improve the ease, quality, safety and sustainability of the exhibitor experience at our events. We would like our exhibitors/contractors to join us in moving towards the future of exhibiting.

Do you know what happens to your stand?

What is a disposable / single-use stand?

Space only / raw space stands made to be used only once which are usually constructed from raw materials at the venue during build up. The stands are demolished and disposed of after the event and the **stand materials are not reused or recyclable.**

What is a reuseable stand?

A reusable / non-disposable stand is constructed using materials designed to be used multiple times. There are almost endless variations of multiple use stands to suit every size and desired appearance.

Benefits to building a non-disposable stand

- Faster, cleaner and safer build with a more reliable timeline – no stress!
- Reduced costs due to a lower waste bill and fewer labour hours
- Higher quality look and feel for your stand
- Demonstrates your company's commitment to sustainability with a lower environmental impact

What are the new regulations?

| what we encourage you to do? | We do not encourage |
|---|---|
| All core structure elements, i.e. walls, floor platform, ceilings, furniture and etc should be constructed with reusable materials, e.g. frame & fabric, reusable panels and etc. | The use of other raw materials to construct the core structure elements, i.e. walls, floors and ceilings, that are <u>not planned</u> to be reused or recycled after use. |
| The stand structure should be prefabricated and ready to assemble onsite. | Building from scratch onsite of any stand core elements. |
| Final adjustment to prefabricated pieces for fitting purposes is allowed. | The use of non-recyclable carpet, PVC vinyl flooring. |
| Final coat of acceptable TVOC paints for repair purposes only. | |
| The use of LED lighting. | |

| | |
|---|--|
| Floor flats and system floors should be cut to size before coming onsite and be recyclable and/or reusable. | |
| The use of recyclable / recycled / 2 nd hand carpet, other eco vinyl flooring / coverings. | |

* A prefabricated stand is one which arrives at the event in component pieces ready to put / assemble together, reducing the need for construction work onsite. At the end of the event the stand is dismantled back into pieces and stored for reuse at another event.

You must make your appointed stand contractor aware of the regulations and brief them to design and build a sustainable, multiple use stand. For more information, please contact our Sales Team or Operations team

We would also like to encourage you to join our sustainability efforts by completing the 8-points checklist enclosed in this document.

| | |
|-------------|--|
| Pre-show | For your travel and transport, choose the most sustainable option possible for your journey to and from the event. Consolidate your shipments and use logistic companies that have sustainability credentials |
| | When purchasing promotional items, consider the amount you order, the environmental credentials of the materials they are made from, as well as whether they are useful giveaways that will be used long after the event is over |
| | Help to support the sustainability of the local area by using local suppliers and considering the sustainability credentials of the hotels you book |
| | Inspire the sustainable development of your industry by promoting your company's and your products' sustainability credentials |
| Show Period | Select energy efficient, LED lighting and other equipment for your stand and be sure to power down your equipment at the end of the day |
| | Reduce paper handouts by going digital and source recycled, sustainably certified paper options where printing is needed. Eg, FSC or recycled paper |
| | Ensure you and your contractor are aware of and compliant with all health, safety and security requirements |
| | Get involved with the numerous initiatives and conversations throughout the event which aim to help facilitate and inspire the sustainable development of your industry |

Would you like to work with us on the sustainability of the event? Contact the event team or reach out to Informa's sustainability team for more information at sustainability@informa.com

7. Security

Though the organizers maintain security surveillance at all times, exhibitors are reminded that goods will be most at risk immediately after the Show closes on the final day. Please make sure your stand, especially personal property, portable and rented items are not left unattended at any time before, during and after the Show.

8. Insurance & Liability

Insurance

In order to protect the safety of staff working on-site and insure against any risk of liability to any exhibitor and its respective appointed contractor arising from the use or construction of each raw space during the move-in days, each raw space exhibitor is required to purchase a liability insurance plan. Each liability insurance plan should be reviewed and approved by our officially appointed insurance company, Orix Insurance Agency Co., Ltd. before processing its application such as getting booth design approval, ordering electricity and settling hall management fees, etc. prior to moving-in.

As the officially appointed insurer for the Exhibition, 上海一鸣优信保险代理有限公司 will provide the most preferential conditions and insurance services to the Exhibition, including on-site insurance applications, on-site supervision on safety, dealing with insured accidents and claim payments etc. Their contact details are as below:

The organisers reserve the right to reschedule the exhibition at a later date. Exhibitors have to acknowledge that the organisers will have sustained damages and losses as a result of the foregoing as well, and shall and does hereby waive all claims for damages or compensation. The sums paid to the organisers as fees or otherwise in connection with the exhibition shall remain the property of the organisers.
- 5) In the case an exhibitor withdraws from the exhibition after confirmation of participation by the organisers, all payment made shall be forfeited. Notice of withdrawal must be made in writing to the organiser who shall arrange for reallocation of such space which does not necessarily entitle the exhibitor the right to claim for refund or any payments made, or release from any sums of which he has already committed or become liable to.
- 6) The sponsors, host and organisers bear no responsibility for any errors or omissions in the exhibition directory, which is compiled from the information supplied by the exhibitors and/or their agents.
- 7) The sponsors, hosts, co-organisers and organisers are not responsible for any loss, damage, or delay incurred in freight shipments (transport, handling and clearing) into and out of P.R. China. Exhibitors are urged to adequately insure all shipments.

9. Fire Precaution Measures

No materials are allowed to place on the area marked with "yellow boxes". Do not obstruct fire exits and sliding gates. All exhibitors shall take measures against fire and to protect the public.

10. Photographing / Video Shooting

Unauthorized photo/video shooting and sound recording in the venue is not allowed. Commercial photographers representing the appropriate media may wish to photograph your stand or an individual exhibit you are showing. Exhibitors that wishing to restrict photographs for any reason should place a notice to the exhibit and are advised to hire their own security guard to enforce the restriction.

11. Interpreter Service

The organizer will arrange interpreter service in order that the exhibitors communicate with local buyers and visitors conveniently. If you need this service, please return or email back Form F before August 31, 2024.

12. Prohibition Items

- A. No business or promotional activity shall be conducted by any exhibitor and/or staff outside their booth areas. No exhibitors are permitted to distribute any publicity materials, like product catalogues and brochures, souvenirs and the like outside their own booth area and in public area of the exhibition venue.
- B. No advertising signs are permitted out with the boundaries of individual stands or pavilions. The Organizer reserves the right to remove signage or posters that does not comply with this regulation and/or which in the opinion of the Organizer do not conform to the purpose and image of the Show.
- C. No activities which, in the opinion of the Organizers, amount to a nuisance or annoyance to the visitors or other exhibitors shall be conducted by exhibitors within the vicinity of the show.
- D. Non-exhibitors are strictly forbidden to affect sales or any form of promotional activity in the exhibition floor that will be prejudicial to the interests of exhibitors or of the Show. Exhibitors are requested to report such activities to the Show management at once.
- E. The exhibition is only open to professionals, minors under the age of 18 (whether exhibitors or visitors) are not allowed to enter the exhibition hall.

13. Other Information

Customs & Excise

Tax is normally not paid on all displays, stationery and drinks to be consumed in the exhibition hall. However, import tax may be charged on souvenirs and gifts. In order to avoid complication, exhibitors are encouraged to abstain from distributing gifts at the stand, except in very small quantity. If the gifts are too expensive, too large in size or are electronic products, the Chinese customs office may refuse clearance even if the carrier is willing to pay the import tax. Exhibitors are therefore advised not to carry these in their personal luggage. Slides, video, movies and all literature for distribution in the exhibition must be vetted and approved by Chinese Customs in advance. For details, please refer to the manual concerning freight forwarding.

Credit Cards

Small hotels, shops and restaurants only accept cash. You are therefore advised not to rely entirely on credit cards for your daily expenses. Only major hotels and high-class restaurants accept credit cards; MasterCard, Visa and American Express are most commonly accepted in China.

Medical

Please bring with you prescribed drugs you may need since these might not be available in China.

No Smoking

Smoking is prohibited within the exhibition area, except in the special areas

designated by the organisers. The exhibitor shall be held responsible for any damage or loss caused by smoking in the exhibition area.

Arrival Formalities

Health declaration, entry card and the Customs Declaration forms are normally presented to you by the aircrew before landing.

If you are hand carrying exhibit items or publicity literature, please declare these at Customs. Should difficulties of clearance arise, request that the cargo be customs bonded. You will be able to debond and clear the same article at the exhibition halls with the on-site Customs officers. For details, please contact the official freight forwarder.

Note: If you are hand carrying exhibits and other items into the exhibition venue, please ensure you declare the same to the on-site customs officer. Otherwise, it would not be possible for you to carry it out of the halls.

General Regulations

- A. The control of the exhibition is vested, at all times, in the organisers whose decision is final and binding on all exhibitors and contractors.
- B. Exhibitors shall be bound by the conditions, rules and regulations set forth in the contract and any changes must be made in writing and signed by the organisers, who shall have full power to interpret and to make or amend these rules provided that such amendments and additions do not operate to diminish the rights reserved for the exhibitor under this application, and shall not operate to increase liabilities of its organisers or sponsors.
- C. The organisers shall have the right, without appeal, to resolve all cases not provided in the regulations in this manual.
- D. Exhibitors agree to observe by all regulations contained in this manual and further amendments and addendum where required by signing the Application Form with the organisers.

Control & Use of Exhibition Stands

- 1) Exhibitors' stands are provided for the sole-purpose of displaying products and items.
- 2) All displays shall not obstruct the view of adjoining exhibits nor be operated in any manner objectionable to other exhibitors. The organisers reserve the right to remove or modify any exhibits whose fittings or operations are considered, under the Regulations, unsuitable, noisy, obnoxious, objectionable or dangerous to the exhibition, the visitors or neighbouring exhibitors. All costs incurred for the removal of such exhibits shall be claimed on the exhibitor.
- 3) The volume of any performance should be controlled properly so as not to disturb the other exhibitors.
- 4) Access to stands must be provided at all times for officers of the official safety services and other government authorities concerned for inspection purposes.

Materials

You shall warrant and ensure that, all content, materials and other information that are

Stand Construction and Management

When an exhibitor appoints an outside contractor to build their stand or an exhibitor builds their stand by themselves (if an exhibitor is building their own stand, they are considered as an outside contractor during the move-in/out period), both the exhibitor and contractor must fully understand following information and regulations. Exhibitors and contractors are expected to comply with any building regulations, all government rules and regulations, and regulations laid down by the organisers

1. Contractor Insurance Coverage

Individual Stand Contractors are required to take out and maintain public liability insurance in respect of the Individual Stand Contractor's liability for death or injury to any person, or loss or damage to property arising out of the performance of the Services in a sum not less than £ 2,000,000.00 (CNY21,230,000.00) for any single claim, unlimited in aggregate. In addition, an Individual Stand Contractor shall take out and maintain valid and adequate insurance cover against theft, fire, damage to property, accidents, natural calamities, acts of God and such other risks normally insured against by a reasonable person in the position of the Individual Stand Contractor, or as UBM Live may require, in connection with, inter alia, the Individual Stand Contractor's property (including all equipment, fittings, furniture, materials and other facilities used or provided by the Individual Stand Contractor in the performance of the Services) and the performance of the Services. The insurance shall be maintained in force at all times during the Move-in, Exhibition and Move-out Period.

Each Individual Stand Contractor **MUST HAVE** valid and adequate insurance cover of not less than £ 2,000,000.00 (CNY21,230,000.00) against public liability. **Individual Stand Contractors are required to present their certificate to the Official Stand-fitting Contractor on their registration at the exhibition site. The Organizers will reject work and refuse entry to Stand Contractors that fail to do so.**

2. Stand Height Limits

The maximum height of construction is 4.5 metres for raw space stands. **Double-deck stands are not permitted.**

Shell scheme stands are 2.5m high.

3. Method Statement

All space only exhibitors building complex structures must submit a suitable Method Statement with their stand designs, detailing the processes by which the stand will be built and operate. These statements should be followed by all involved parties on-site to ensure that all necessary steps and precautions are taken.

Method Statements should cover the following areas:

- A. The employee who will be responsible for construction & breakdown of your stand.

- B. Loadings, dimensions, location, unusual stand features.
- C. Details of entry points into the halls and the route to the final position.
- D. The sequence & schedule in which all the stand elements will be built, including alignment, electrical connections, etc.
- E. Methods of ensuring adequate structural support of stand elements requiring cross-bracing, with calculations & inspection certificate from an independent structural engineer.
- F. Specify the equipment(s) to be used, their capacities, weight, locations and floor loadings. Check the operatives' current license or Certificate of Competence. Check machine's inspection certification or maintenance record.
- G. Include details of temporary & mobile scaffolds, access towers & other work at height which you intend to carry out. People working close by must be protected.
- H. Consider any abnormal noise that may be present, or work which may create dust or fumes. What ventilation and other control measures will be provided?
- I. State where electrical work will be carried out, welding, gases, compressed air, water or waste services will be brought on-site.
- J. Identify the safety equipment & precautions you will be providing on-site, including any protective measures you will be implementing, and areas of risk as highlighted from your Risk Assessment.
- K. Provide the Organisers with details on exhibits which may present a risk to the public and / or the operator. How will this exhibit be delivered onto your stand? What machine guarding or other special requirements are there? What hazardous waste will be produced, and what measures will be employed to dispose of that waste?

4. Personal Protective Equipment (PPE)

Safety Helmets

All stand contractors working in the exhibition centre must wear safety helmets. Safety helmets are essential in the case of working at height, or being in the vicinity of contractors working at height. Please make sure that you wear your safety helmet properly, fitting the chinstrap to avoid the helmet falling off.

Footwear

Correct footwear protecting against nails, debris and etc are required for exhibitors / contractors working in the exhibition centre during build-up and dismantling.

Use of Tools and Equipment

Contractors are required to have any other PPE which are suitable for their work such as gloves, goggles, masks,

earplugs.

5. No Obstruction To Gangways

During the process of installation, construction and removal of stands, the gangways must not be used at any time for the storage of plants, materials or debris of any kind. The organisers may at their discretion order the removal of such objects and the exhibitors / contractors will be liable for the cost of removal.

6. Stand Construction

- A. Materials used for the construction and installation of the exhibition stands and any other structures must consist entirely of non-combustibles with a burning diffusion rate not lower than Class B1 as required by both the national and local fire-control regulations of Shanghai. All those equipment must ensure that the normal open or use.
- C. According to fire regulations, there should be 50-60 cm clearance between the outer partition walls of the stands and the walls of the exhibition hall for safety inspection.
- D. No objects can be attached to or suspended from the fire sprinklers or lighting fixtures on the ceiling. Spotlights and other heat-generating equipment should not be focused or be stationed near the fire sprinklers.
- E. The organisers or exhibition centre shall be entitled to remove any form of construction or structure which is not approved or violates the above-mentioned guidelines. Exhibitors and contractors shall be responsible for risks and expenses that may occur.
- F. Contractors must put a protective covering on the hall floor before any work commences, and shall be responsible for the repair of any damage to the floor due to the construction or dismantling of the stand.
- G. No nails, adhesives, drawing pins, or similar materials or hole-drilling shall be applied to

any part of the Shell Scheme booth or exhibition centre premises, otherwise, the exhibitor/contractor shall be responsible and liable for any damage caused. All stands must be self-supporting; no structure or other item is allowed to lean on or be fixed to adjacent stands or structure of the exhibition centre.

- H. Only environment-friendly carpet and double-sided cloth adhesive tapes can be laid on the floor. Inferior carpets containing CaCO_3 , double-sided blown-sponge or any other materials difficult to clean up are forbidden.
- I. Stick-on decals or similar promotional items are forbidden to be stuck on any part of the building of the exhibition centre. Any cost incurred by the exhibition centre for the removal of these items and repair of any damage caused shall be borne by the contractor.
- J. No open flame or combustible gas is allowed to be used in the exhibition centre.
- K. No pungent glue is allowed.

7. Working At Height

- A. Operators who are engaged in working at height (2 metres or above) must carry out necessary safety measures against injuries that might be caused by falling, or objects being dropped.
- B. When passing tools or objects, throwing is forbidden. Methods such as hand-to-hand passing, or conveyance of tools or objects by bags, or lifting up and/or down with ropes, shall be adopted.
- C. Unqualified operators are forbidden to do overhead work, and it is also strictly forbidden to do overhead work after drinking alcohol.
- D. If work is above 2 metres, ladders are not allowed, and a suitable metal scaffold or working platform is necessary. The scaffold/platform should be properly fitted with a guard rail, mid rail, toe board, outriggers and wheel locks. High stability is required, with a maximum height to least base dimension ratio of 3.5 (indoors) and 3 (outdoors). Workers must wear safety belt/harness and clip on to a secure anchorage point. Scaffolds/platforms may not be moved while in use or occupied.
- E. Access to areas in the vicinity must be controlled to prevent persons walking or working directly under high work. Workers in the vicinity must wear suitable head protection e.g. safety helmet.

8. Electrical Installation

Application for Distribution Box

Raw Space stand contractor must apply electrical link-up (Distribution Box) from the Official Stand-fitting Contractor before the deadline. Please find the application form in Attachment – Contractor Service Manual.

Connection of Distribution Box

PE).

- 1) The installation personnel for electric lines and facilities must hold valid electrician operation certificates.
- 2) Only qualified electrical materials are used in the build-up of booths (including both Shell Scheme booths and Raw Space Stands). Double-sheath copper wires and cable lines must be used, and the section of the conducting wires must be ≥ 1.5 mm. Electrical materials must be equipped with enough safe loading capacity. It is strictly forbidden to use single wires with no sheath, twist pairs or aluminium wires. As to the configuration of wires, three-phase five-wire system shall be applied for the line voltage (L1 L2 L3, N, PE) and single-phase three-wire system for the phase voltage (L, N, PE).
- 3) All metallic structures and shells shall have a reliable grounding. The conducting wires should be fixed in a cellular or other form instead of being randomly installed on roads, grounds or doorways. Electric lines crossing passageway shall be protected by a cable bridge. When sub-circuits are connected, insulating porcelain and plastic joints must be used instead of being wrapped directly by insulating adhesive tape before any insulation protection measures are taken.
- 4) The distribution box must be installed in a cable duct or in the exhibition stand. It is strictly forbidden to leave a distribution box in doorways, fire-control passages or any conspicuous place in exhibition stands.
- 5) Outdoor electrical and lighting equipment shall be waterproof. Safety measures such as moisture-proofing, water-proofing and weather-proofing, etc. shall be implemented. All electrical apparatus, wires/cables etc. which can be easily contacted by people shall be covered with special protection.

Electricity Supply

The exhibition centre will supply electricity to stands at 10:00 on October 12, 2023 (the time may be subject to change, and the exact time will be broadcast two hours prior to supply). Exhibitors and contractors shall carry out inspections within those two hours to ensure conformity to the Rules of Operating Low-Voltage Electric Facilities.

Electricity Cut-off – Show Close (October 24 -27)

To ensure the safety of the exhibition hall and eliminate fire risks, exhibitors and contractors must cut off electricity to all facilities (electricity to Shell Scheme stands will be cut off by the Official Stand Contractor) when the exhibition day ends. If there are stands whose electrical supply is not cut off, the exhibition centre shall turn off the power and the exhibitors and contractors will be responsible for all ensuing consequences.

In the case of stands which require 24 hours power, the exhibitors or contractors must apply to the Official Stand Contractor before September 15th.

Electricity Cut-off – Show Close (October 27)

Electricity will be cut off at 14:00 on October 27, 2024. Please turn off all the facilities and exhibits beforehand, otherwise, the exhibitors and contractors will be responsible for all ensuing consequences.

Electrical Apparatus

All electrical apparatus, their electrical load and sensitivity in electrical insulation must comply with the relevant PRC regulations.
